Library - Publish & Discover

The Library is the place where works go public – your own and those of others.

Publishing a Work

1. Create your work in the **Studio**.
2. Click **Publish** – the work will appear in the Library.
3. With one click, it can also become a listing in the **Shop**.

Discover and Read

- Browse by titles, genres, and authors.
- Open a work and read it directly in the browser; for narrated works, switch between **Read** and **Listen**.

Free Chapters

Many works offer a free chapter to give you a taste. You can unlock the full work via the **Shop**.

Tip: Your published works collect in your profile – this is how other readers can find you.
