

Account & Plan

VCF-MADE Academy · vcf-made.de/akademie/konto

Account & Subscription - Credits, BYOK, Security

Under Account & Subscription you manage your credits, your subscription, your integrations and your security.

Credits and Subscription

- **Credits** are used for AI features (texts, images, voices) and can be topped up as needed.
- A **subscription** unlocks additional features and regularly provides credits.
- You can see your current status in the **Subscription & Credits** section.

Bring Your Own Key (BYOK)

You can store your own API keys (**Bring Your Own Key**). The AI costs then run directly through your provider instead of your credits.

Security

- Secure your account with **two-factor authentication** or a **passkey** (sign in without a password).
- Manage your sign-in methods in the **Security** section.

Your Data

You can view your data at any time and delete your account. You can find details in the privacy policy.
