

# Tools

VCF-MADE Academy · vcf-made.de/akademie/tools

## Tools - Free Mini Utilities

---

The Tools are free small web utilities – ready to use instantly, no sign-up required.

## What to Expect

---

- **QR Code Generator** – create a QR code from a link or text and download it as an image.
- **Barcode Generator** – generate common barcodes.
- **Avatar Creator** – turn a photo into a stylised profile picture.
- ... and more handy helpers.

## How to Use a Tool

---

1. Open the **Tools** section.
2. Select the desired tool from the overview.
3. Enter your data (for example, a link for the QR code).
4. Download the result as a file.

## Free and Without Registration

---

Most tools can be used immediately and free of charge. Some particularly advanced features (for example, the AI avatar beyond the free quota) consume credits – you will see this directly on the tool.

**Tip:** Many tools are also suitable for embedding on your own website.
